ACCELOPS NAMED FINALIST IN SECURE COMPUTING MAGAZINE AWARDS

SANTA CLARA, CALIF. – December 15, 2009 – [AccelOps](#), the integrated datacenter monitoring leader, has been named a finalist in the [2010 SC Awards](#) program for outstanding achievement in information technology (IT) security. AccelOps is recognized in the Excellence Award category as Best Rookie Startup of the Year, which recognizes companies with superior security products that help customers tackle today's pressing security challenges.

"Our distinguished panel of award judges selected AccelOps as a finalist in our Excellence Awards category – recognizing its contribution to the world of IT security," said *SC Magazine* Editor-in-Chief Illena Armstrong. "Businesses are challenged every day with newer and more sophisticated security threats and they rely on companies like AccelOps to help protect their assets."

As the industry's preeminent awards program, the annual SC Awards has recognized security's key contributors and outstanding products for more than a decade. The SC Awards are designed to honor the professionals, companies and products that help fend off the myriad security threats confronted in today's corporate world. Individuals, brands and solutions recognized in the program address not only the security challenges prominent today, but also the emerging threat landscape of tomorrow.

IT security companies nominate their solutions for consideration in the SC Awards and entries are judged by a panel of leading security officers from large, medium and small enterprises from all major vertical markets – representing the wide distribution of [SC Magazine](#) readers.

"The trend toward network and security operations convergence, combined with increasing datacenter technology complexity and security threat sophistication requires a more advanced and holistic approach to security information management," said [Imin Lee](#), CEO of AccelOps. "AccelOps is honored to be selected as a SC Award finalist in

recognition of our efforts to deliver an integrated and service-oriented solution to datacenter monitoring.

Winners of this year's SC Awards will be announced at a gala dinner and award ceremony to be held in San Francisco on Tuesday, March 2, 2010. The event is an evening filled with excitement and offers an invaluable opportunity to network with the top corporate IT professionals in attendance. To attend the SC Awards, please register at: <http://www.scmagazineus.com/sc-magazine-awards-2010/section/1053/>

About SC Magazine

SC Magazine provides IT security professionals with in-depth and unbiased information through timely news, comprehensive analysis, cutting-edge features, contributions from thought-leaders and the best, most extensive collection of product reviews in the business. By offering a consolidated view of IT security through independent product tests and well-researched editorial content that provides the contextual backdrop for how these IT security tools will address larger demands put on businesses today, *SC Magazine* enables IT security pros to make the right security decisions for their companies. Besides the monthly print magazine and daily website, the brand's portfolio includes the SC Awards, *SC Directory*, SC Magazine Newswire and the annual SC World Congress conference and expo.

About AccelOps, How IT Accelerates Business

AccelOps provides award-winning datacenter monitoring and [IT service management](#) software delivered as a virtual appliance or SaaS. The all-in-one solution assures service reliability through integrated datacenter monitoring, alerting, analysis and reporting across performance, availability, security and change management. The integrated approach aggregates, cross-correlates and manages diverse operational data to yield end-to-end visibility, service intelligence, operational efficiency and compliance automation. The Silicon Valley-based company is privately held, venture-backed and led by experienced technology executives who created the popular Cisco MARS security information management appliance.
