**ACCELOPS INTEGRATED DATA CENTER MANAGEMENT SOLUTION
WINS BEST OF SAAS SHOWPLACE AWARD**

SANTA CLARA, CALIF. – May 4, 2010 – [AccelOps](#), the integrated data center and cloud service management leader, today announced the company is the latest winner of the [Best of SaaS Showplace \(BoSS\) Awards program](#) by [THINKstrategies](#), Inc., the leading strategic consulting company focused on the business implications of the on-demand services market.

The BoSS Awards program is aimed at promoting the SaaS companies that are producing tangible, measurable business benefits for user organizations. These benefits include increased sales, lower costs, higher customer satisfaction, faster operations and greater profitability.

"Today's 'always-on' networks, dynamic virtual environments and diverse applications make data center management challenging," stated Jeffrey M. Kaplan, the founder of the SaaS Showplace and managing director of THINKstrategies. "AccelOps Infrastructure Monitoring as a Service platform addresses these operational challenges in an integrated, proactive and service-oriented fashion with SaaS results and packaging that are attractive to mid-tier enterprises."

AccelOps allows organizations to better leverage virtualization technologies and cloud computing by providing end-to-end visibility across performance, availability, security and change management while linking the physical and virtual infrastructure to business and business services. AccelOps integrated and service-oriented platform automates the collection, monitoring, analysis and detailed reporting on all performance and IT/event log data with a single pane of glass that cuts through networks, systems, applications, virtualization and technology boundaries.

Delivered as a virtual appliance or SaaS, AccelOps yields in-depth operational oversight, efficient root-cause analysis, reduced MTTR, operational efficiency and compliance automation.

“We are extremely pleased to be recognized by THINKstrategies and the SaaS Showplace for the business value of our data center and cloud management solution,” said [Imin Lee](#), CEO of AccelOps. “AccelOps offers the right packaging, best-in-class features, and value for mid-tier enterprises to take advantage of infrastructure monitoring as a service.”

Available as Virtual Appliance or SaaS

AccelOps is generally available and offered as a virtual appliance or software as a service (SaaS) with a list price starting at \$2,000 a month depending on model capacity. Users are welcome to apply for a trial evaluation through [AccelOps' Try and Buy program](#).

About AccelOps, How IT Accelerates Business

AccelOps provides award-winning data center and cloud service management software delivered as a virtual appliance or SaaS. The all-in-one solution monitors data center, network infrastructure and cloud environments across service, performance, availability, security and change management. The integrated approach aggregates, cross-correlates and manages diverse operational data, both on-premise and in the cloud, to yield end-to-end visibility, efficient root-cause analysis, reduced MTTR, operational efficiency and compliance automation. The Silicon Valley-based company is privately held, venture-backed and led by experienced technology executives who created the popular Cisco MARS security information management appliance.
