

Positions:

Opening (1)  
System/Service Administrator

AccelOps Inc seeks a System/Service Administrator responsible for supporting and maintaining the AccelOps SaaS Systems and internal network. This is a hands-on role and requires supporting a 24x7 High Availability Production Environment. Responsibilities will include day-to-day management of the SaaS System and internal network, security, server infrastructure, system updates, system monitoring, system backup/restore, and operational reports.

## Requirements

Mandatory Skills and Requirements (Applicants must have the following skills):

- 4-8 years related experience.
- Networking experience with routers, firewalls and load balancing.
- Hands-on experience with VMware ESX products.
- Hands-on experience with Linux configuration/administration, shell/perl scripting.
- Experience in supporting a 24x7 production environment and be able to respond to emergency calls on a 24x7 basis.
- Responsible, self-initiative, hardworking, good with teamwork, and willing to join a start-up at a ground level opportunity.
- BS/MS in Computer Science or EE.
- Good written and verbal communication skills.
